This seminar is going to focus on advanced work, rather than how to teach exercises from start to finish. It is intended for those that have attended Janice Gunn workshops in the past, and/or handlers that have achieved a minimum of a CD title on at least 1 dog.

Lots of group work and proofing will be covered. Dogs should have good off lead control and not be aggressive. Handlers from all over Vancouver Island have attended numerous Gunn workshops and their training skills are significantly improving. Janice would like to be able to further develop these skills, to an even higher level.

Novice dogs and puppies are welcome, and focus will be towards the intermediate - advanced handler. Those who follow Janice's methods, and have attended past Gunn workshops will be given working spot priority. This will be an exciting weekend, filled with lots of valuable information.
