Clicker Training Fundamentals

Saturday, December 4

9:00 AM – 5:00 PM

Clicker Training is an easy and effective training technology that has been used to train hundreds of animal species. If you have heard about clicker training or are looking for a positive and proven way to train your dog, this workshop is for you. The workshop can benefit everyone from the novice dog owner who would like to learn how to better communicate with their dog to the experienced trainer looking to expand their understanding of the science and application of modern training techniques.

Includes:

- Clicker training process and Techniques
- Using a clicker to train behaviours
- Intro to canine learning
- Basics of behavioural science
- Setting up successful training sessions
- Creating better relationships through good training.

*Interactive demo spots with dogs are available.

Spaces are limited, so register early to avoid disappointment!

\$95 per person
