

Sniffing On! NoseWorkOuts workshop-SDDA with Teresa Lewin ©:

There is no doubt that the Pre-Trial workshop will be exhilarating and fun. The 'paws and hands on' component engages all who are present. It spreads positive energy like lightning through-out the venue, leaving no attendee (human or dog) untouched by its vigour and spirit.

Everything a trial competitor or even the hobbyist needs to know about trialing will be offered. As each team works, there will be an ongoing critique and many questions will be answered as each team builds on new exercises. Emphasis will be on leash handling and directing, what to expect while trialing, what to do when nerves get the best of you, as well as knowing what to expect from the Judge and the venue. Education is empowering because it takes the 'fear' of the unknown out of the equation. Whether you are just a beginning sniffer, or ready for the challenge of trial, this workshop will meet your needs.

Audits will participate vicariously through each working component sitting on the edge of their seats! It's truly amazing and super fun, tail wagging time!

Estimated workshop outline:

- Leash handling
- Handling skills
- Directing can be a fabulous tool and deserves an honourable mention.
 - How the score sheets work
 - What to expect from the Judge
- What's expected of the team in SDDA Started trial
 - When to direct and when not to.
 - How to work a venue for success
 - Problem solving in the ring
 - Tips for success
