

# RATS! Canada

## Introduction to Barn Hunt Basics

Windsor, NS

Saturday November 28<sup>th</sup>, 2015 10am – 2pm

Open to All Dogs - \$10.00 per team (\$2.00 per every extra dog)

**Do you have a dog who likes to sniff and use their nose?  
Well... of-course you do! :-D**

Come out and learn the basics to Barn Hunts with your dog. You will learn the rules and protocol for Barn Hunts, and as this is also a working introduction for your dogs, you will need to be prepared to work with your dog.

Barn hunt searches are similar to nose work, as dogs must use their noses to locate the proper tube that contains the rat.

Dogs carry-out these searches in a barn or horse arena area, searching through bales of hay and straw. This is a very natural sport for our dogs and because of this it is a sport that dogs thoroughly enjoy.

**This is the first Barn Hunt Search being offered in the Maritimes, so please consider bringing your dog out for a fun day and to make a bit of history**
