Sue Joy will be teaching this workshop. Sue has been training and competing in disc dog since 2007. Initially, Sue learned how to throw an ultimate frisbee playing on the beach and camping trips with friends. It was a natural transition for her to become involved in the sport of disc dog. She began playing and competing with a friend's dog before getting her own competitive disc dogs Party and Traffic. Sue has also trained her dogs to compete in obedience, Rally-O, tracking and agility but disc is most definitely her love and passion!

Sue has traveled to many Canadian and U.S. events to compete and learn from other experienced disc dog handlers. She brings a vast knowledge and lots of experience to new disc doggers and is very comfortable problem-solving challenges a dog/handler team might be having. Sue also knows a variety of throws she can teach from basic backhand throws to freestyle throws to distance throwing techniques.

Sue has qualified dogs for an invitation to the USDDN World Championships every year since 2010 as well as qualifying dogs for invitations to the Skyhoundz World Championships since 2012. Sue also finished in the top 5 earlier this year in a UFO Major disc dog competition as well as the Indiana States Championships.
