Treasurer: Jenna Tischer

Show Chairperson: Audra Warren

Chief Ring Steward: Charlene Maines

Show Superintendent: Audra Warren

THANK YOU TO OUR SPONSORS:

JUDGE : CATHY BARLOW

I have always loved animals especially dogs, cats and horses. I grew up in Ottawa and every year my Father would take me to the Show of Shows. It was from watching this magnificent show and seeing all the breeds that I decided that when I was able I would like to acquire a purebred dog that I could show. During our last year of University my husband and I acquired our first show Gold Retriever and English Springer Spaniel and I got hooked. After graduating we moved to Calgary and thru this fancy I have met many friends which I am truly grateful for and enjoy.

I have produced American and Canadian Champions and Canadian BIS dogs. I am still breeding Golden Retrievers. Both my husband and I are lifetime members of the Canadian Kennel Club and my husband received the honour of 50 years in 2024.

This year I achieved my All Breed Judging Status.

In addition to my addiction to dogs, my family, gardening and quilting keep me busy.

I look forward to this honour of judging your specialty.

ASSIGNMENT: All Regular, Unofficial and Non-Regular Classes

HEARTLAND VETERINARY CLINIC

We are committed to providing uncompromised professional healthcare for your pet and personalized information enabling you to make decisions in the best interest of your animals. Our team of experienced veterinarians and support staff are here to ensure that your pet receives the best care possible.

Dr. Gheorghe Rotaru D.V.M. C.C.R.V. | Dr. Jody McMuray D.V.M. | Dr. Jismol Jose D.V.M. MSc

What We Offer:

WELLNESS EXAMS

We offer comprehensive wellness exams to ensure that your pet is healthy and happy. Our team of veterinarians will examine your pet from head to tail, checking for any signs of illness or injury.

VACCINATIONS

We offer a range of vaccinations to protect your pet from a variety of diseases. Our team can help you determine which vaccinations are necessary for your pet based on their age, breed, and lifestyle.

SICK PET SERVICES & DIAGNOSTICS

Our veterinarians are well-equipped to provide surgical and medical recommendations based on your pet's unique needs.

DENTAL CARE & ADVANCED DENTISTRY

We offer comprehensive dental care services and demonstrations of proper home care to ensure your pet's teeth and gums are healthy!

NUTRITION CONSULTATIONS

We can help you determine what's best for your pet's proper nutrition based on their life stage and medical condition.

DERMATOLOGY SERVICES

Our veterinarians are well-equipped to provide surgical and medical recommendations based on your pet's unique needs.

LASER SURGERY (ELECTIVE & NON-ELECTIVE PROCEDURES)

We offer a range of surgical services, from routine spay and neuter procedures to more complex surgeries such as cruciate ligament repairs, 'cherry eye' repairs and more. Our team of veterinarians and support staff will ensure that your pet receives the best care possible before, during, and after their surgery.

ORTHOPEDIC SERVICES

Our veterinarians are well-equipped to provide surgical, medical or physiotherapy recommendations based on your pet's unique needs.

CANINE REPRODUCTION

We offer expert canine reproduction services, including pre-breeding health assessments, insemination, pregnancy care, and whelping support. Our team ensures responsible breeding with compassionate, professional care.

THERAPUTIC LASER

Therapy laser for your pet creates an optimal healing environment that reduces inflammation, swelling, muscle spasms, stiffness, and pain.

PRP (PLATLET RICH PLASMA) INJECTIONS

Regenerative medicine provides a drug-free, minimally invasive solution to acute and chronic orthopedic and soft tissue injuries, treating our patients from the inside out.

EUTHANASIA

Our compassionate staff is here to support you through the process of euthanasia, and we are here to provide comfort and care during this difficult time.

NS Canine Rehabilitation and Wellness Centre

We specialize in enhancing the health and well-being of canine companions through expert rehabilitation care. At our clinic, we understand that dogs are more than just pets, they are cherished members of a family. That's why we are dedicated to providing the highest quality of care to ensure that they live happy, active and pain-free lives.

Our team is led by a certified canine rehabilitation veterinarian with specialized training and years of experience working with dogs of all breeds and sizes.

Dr. Gheorghe Rotaru D.V.M. C.C.R.V.

What We Offer:

STANCE ANALYSIS

A stance analysis is designed to provide a quick, objective evaluation of how your pet might be shifting their weight and signs of lameness. This information is essential to ensuring the success of your pet's treatment plan and gives our rehabilitation team vital information about the progress your pet is making during re-evaluations.

ASSESSMENT AND TREATMENT

Our experienced rehabilitation veterinarian will conduct thorough assessments to identify any musculoskeletal issues or mobility challenges your dog may be facing. Using evidence-based techniques, we develop personalized treatment plans to improve their mobility, reduce pain, and enhance overall quality of life.

THERAPEUTIC LASER

Therapy laser for your pet is a non-invasive treatment that helps reduce inflammation, swelling, muscle spasms, stiffness, and pain. It can be used to treat various conditions such as osteoarthritis, IBD, muscle sprains/strains, and wound-healing.

TENS/NMES TREATMENT

Transcutaneous Electrical Nerve Stimulation (TENS) emerges as a gentle yet effective therapy for our beloved canine companions. Developed from human medical practices, TENS involves the application of low-voltage electrical currents to specific points on a dog's body, targeting nerves and muscles to alleviate pain and promote healing.

PAIN MANAGEMENT

We prioritize your dog's comfort and well-being. Through targeted therapies and exercises, we effectively manage pain associated with arthritis, joint stiffness, and other conditions.

UNDERWATER TREADMILL

Our underwater treadmill offers dogs a safe and effective way to exercise in a controlled water environment. This low-impact therapy helps improve mobility, build strength, and manage weight, making it ideal for rehabilitation after surgery, relieving arthritis discomfort, and enhancing overall fitness. Each session is tailored to your dog's needs, promoting a healthier, happier life through gentle, yet effective, exercise.

PLATELET RICH PLASMA (PRP) INJECTIONS

If you are looking for a safe and effective alternative to invasive surgeries, PRP injections may be just right for your pet. PRP is a regenerative medicine that uses your pet's own blood plasma to stimulate natural healing within the body, promoting the regeneration of damaged tissues and decreasing inflammation inside the joint.

REHABILITATION PROGRAMS

Whether your dog is recovering from surgery, injury, or suffering from a chronic condition, we offer comprehensive rehabilitation programs designed to aid in their recovery and strengthen their muscles and joints.

SHOCKWAVE THERAPY

Shockwave therapy for dogs, also called extracorporeal shockwave therapy (ESWT), is a modern treatment designed to address musculoskeletal issues in our furry friends. This non-invasive technique utilizes high-energy sound waves to stimulate healing and pain relief in conditions like osteoarthritis, tendon injuries, and ligament damage. By enhancing blood flow and promoting the regeneration of damaged tissues, shockwave therapy can help improve mobility and reduce discomfort. Typically, the procedure is quick and may require several sessions to achieve optimal results. It's becoming an increasingly popular option for veterinarians seeking to provide effective, surgery-free treatment for their canine patients.

LIVE LONG - LOVE LONG

About Us

We are proud of the fact that our natural ingredients are harvested right here on our prairie Canadian soils to bring you the best sourced product for your pet.

Our Blend

Roasted Flax

Flax is a high source of Omega 3 and Omega 6 fatty acids. Omega fatty acids are great for your dog's body and brain. They are known to have anti-inflammatory properties, and can help support hydrated healthy skin and coat and healthy joints.

Turmeric

Turmeric contains a compound called curcumin - which is essentially its active ingredient. Curcumin for dogs has antioxidant, anti-inflammatory, antiviral, antibacterial, antifungal, wound healing and anticancer activities.

Black Pepper

Black pepper contains piperine, which can enhance the absorption of curcumin in the dog's body promoting a faster recovery time.

PHANTOM RETRACTABLE SCREENS FOR ALL DOOR TYPES

OPEN YOUR DOORS TO GOOD THINGS

With Phantom retractable door screens there's no need to worry about blocking your view - when they're not in use they disappear completely, preserving the look of your doorway.

A RETRACTABLE SCREEN FOR IN-SWING, OUT-SWING, SINGLE, DOUBLE-FRENCH AND SLIDING DOORS

There's nothing like being able to leave your door wide open to enjoy the breeze, especially towards the end of a hot summer day. Phantom's retractable door screens disappear out of sight into a discreet housing, giving you fresh air without the bugs - and won't block your view! They come in a wide variety of colors, sizes and mesh types, perfectly matching with your décor.

FEATURES & BENEFITS

- Retracts horizontally and completely out of sight when not in use
- Fits all door types including in-swing, out-swing and sliding doors
- Available in ten standard colors to match most builder tones
- Manually operated retractable screens
- Inside jamb or surface mounted
- Mesh that offers insect, solar protection and a crisp view
- Various threshold adaptors to integrate with virtually any type of doorway
- Professionally installed by a Phantom Professional
- Industry leading Limited Lifetime Warranty

LATCHING SYSTEM

THUMB LATCH SYSTEM

An integrated quick-release latch in the handle for ease of use and secure from unintended openings.

COLOR OPTIONS

Available in ten standard colors and decorative wood grain finishes. Custom color option available also.

Please note that the appearance of the colors illustrated will differ from the actual color samples or finished articles.
