UKC NOSEWORK SEMINAR

WITH CHERYL CARLSON

When: Saturday, Feb 14th, 10 am – 5 pm

Where: Oxford Dog Sports Training Hall, 491 Hwy 2, Princeton

Working \$75.00 per person - limited to 10 working spots

Auditing \$50.00 per person – limited to 20 auditing spots

Overview: Nosework is spreading across the country like wildfire! This fabulous new sport mimics the work done by drug, bomb and other working detection dogs, but in a safe and fun environment suitable for all dogs and handlers. Dogs learn to find 'target' scents hidden in various environments, and can work their way through various levels of difficulty to earn titles with several different organizations. It is a wonderful activity for dogs and handler of all ages and physical abilities, and can provide a non-stressful 'second career' for older dogs, as well as a great first sport for puppies.

Details: This seminar will be taught by Cheryl Carlson, of St Johns, Michigan and is suitable for both beginner and experienced nosework handlers. Anyone who has attended our UNA Nosework trials knows what a wonderful teacher she is. She not only has a great depth of knowledge and experience, and can clearly evaluate a team's strengths and weaknesses, she also has the ability to communicate and tailor her recommendations specifically to that team's level. More information about Cheryl and her lifetime in dogs can be found at <http://chercarkennels.net/>

Refreshments: Coffee, snacks and lunch are included.

Although this seminar will focus on the new UKC nosework program, the foundations, skills, training and techniques would be suitable for any nosework program, and the UKC, SDDA and NASSW scents will all be used. Scent training kits will be available for purchase, and there will be lots of opportunities for training and practice.

Please Bring: Chair, indoor shoes, and place crates on the rubber matting, or provide your own tarps or rugs to place under crates or expens. Some extra chairs and crates will be available.
