

Pet First Aid

St. John Ambulance Saint-Jean

Did you know that first aid skills and knowledge specific to dogs and cats exist and can save your pet's life in case of illness or injury? The St. John Ambulance pet first aid course provides the knowledge and skills needed to respond safely and efficiently if your pet gets sick or injured – you can save your pet's life. You will learn and practice resuscitation techniques like CPR and choking, and also learn how to prevent your pet from becoming seriously sick or injured by pet proofing your home.

This is a program that provides life-saving knowledge and training for pet owners. This course encourages safe management of emergency circumstances, and prepares rescuers to respond to life-threatening situations involving their domestic animals. Pet First Aid provides the participant with the knowledge, judgment and skills needed to respond safely and effectively in an emergency.
