About the Speaker: Claudia Waller Orlandi, Ph D
Author of The ABC's of Breeding: What Every Breeder Should Know! & Practical Canine
Anatomy & Movement

Getting her start in the dog fancy as a Junior Handler over 50 years ago, Claudia Waller Orlandi, Ph.D., has been a successful breeder of Basset Hounds for over two decades under the Topsfield prefix. Topsfield Bassets hold numerous Breed and All-Breed show records. Claudia's enthusiasm for breeding is matched only by her passion for teaching and working with other breeders. Her ABC's of Dog Breeding Home Study Program is based on the enthusiastic response to her educational seminars on breeding and her belief that anyone can and should understand the practical rules of animal breeding and canine genetics in their quest to breed better, healthier dogs.

Claudia's involvement with the dog fancy began in the 1960's as a Junior Handler of the St Bernard, Ch Bowser Waller. Although she has shown various breeds of dogs since, for close to 25 years her passion has been breeding Basset Hounds. The Orlandi's Topsfield Kennel is located on 200 acres in Vermont and houses between 40 to 50 Basset Hounds. Claudia and her late husband, Dom, have owned and produced over 115 champions.

Topsfield Bassets hold various Breed and All-Breed records and include National Specialty winners at all levels. She judges Basset Hounds, Dachshunds, PBGV's, Beagles, Basenjis, Rhodesian Ridgebacks and Junior Showmanship. She is a 2009 Dogs in Review Outstanding Breeder nominee and winner of the 2009 American Kennel Club Breeder of the Year award. She has conducted over 125 seminars on dog breeding and canine anatomy and movement.
